1. Alderman Williams – Couple of residents are upset regarding the millage increase. When it was voted on it caught some of us by surprise. It was approved 5-0 Alderman Williams was the only council member who did not approve of this. What Alderman Williams wants to do is roll back the millage at the November council meeting, and put it back on the agenda and vote in regards of lowering the millage.
2. Judge Bunch would like to recommend a deputy court clerk. Grace Fielding is our court clerk and would like to appoint Jaci Hawkins as our deputy court clerk. Due to the City being in a hiring freeze no changes will be made and will use an existing employee.
  - a. Grace Fielding: The reason the judge wants an employee as a court clerk is because of the court disbursements. The court clerk needs to be a part time employee instead of a contracted employee, and needs to be on the court bank account by law.
  - b. The annual salary amount \$18,200 a year.

Mayor Lee: Employee discussion (Executive Session) We will not be voting on anything, just a discussion.

Alderwoman Winters: Joe Powell filed with his attorney to request an appeal and Alderwoman Winters spoke with Mark Hayes and per his request we needed to vote to hear his appeal. Further discussion will be in the Executive Session.

I sent in an FOIA to the Police Department and asked what was in the inventory, that equipment was not in the inventory.

7. Rita Duran – 1600 Parkridge Way

1. We have had 2 meetings, first one was at the IRWS. 60 people attended, second one had 70 people. Not one person wants the bike trail. 20% are directly impacted 80% are indirectly impacted.
2. The Mayor said at the last meeting he did not have an issue with moving the trail to Shores.

8. Mike Martin – Wellington Subdivision

1. Trusted the City several years ago and look at Wellington now. I have a Red Dirt Mine in my back yard with a 50' drop off.
2. We are all here for the same purpose. I encourage the city to step back and look who we want to be when we grow up. I don't want to be Bentonville or Fayetteville. We need to hold our city government accountable. We are not acting like this is an emergency, we need to look at our finances. If not, we will be holding you accountable.

9. Mary Claire Scotten –

1. I have had nothing but conflict with the City of Cave Springs since I have lived here in 1972. This mayor was different.

10. Randy Noblett – 618 Weston Circle Cave Springs

1. Paid his taxes this week. The state rolled it back to 4.95 and on this year's millage it shows 5 mills.

11. Jackie Ally – Ridgewood

1. Does not approve of the bike trail.
  - a. A friend of hers had a man expose himself on the bike trail in Springdale, and does not want that in her backyard. If the trail goes in, they will sell their home. There are other things we can do for the city. We are sick of being bulled over.

12. Rhett Daniel – 1402 Autumn Ridgeway

1. Does not approve of the bike trail.
  - a. I have two small kids. Pedophiles & thieves are what is going to be in our backyard.

b. Who wants to come to Cave Springs to see the downtown area?

13. Tim Chastin – POA President of Ridgewood Subdivision

1. Mayor you committed to us 3 weeks ago at the IRWS that if we did not want that trail in our subdivision you would make sure that it happened that it would be moved to Shores. If you do not hold up to that we are going to hold you accountable and we will send you packing and vote you out of office. We are going to stand together. The rest of the council might not have heard as much as the Mayor has. The city has been transparent about this issue. We don't want your trail. If you can't afford to run the city how can you afford to maintain a bike trail? Sounds like you are bankrupt.

14. Sandra Hight – Sands Road

1. Repair and Resurface Sands Rd. The city said they were going to pay \$80,000.00 to do this work, and it is now a dirt road. I have commented on the City Facebook Page and what happened I was deleted. Did this go out for bid, and If it did not why? Seems like an awful lot of money for a dirt road. I think it is time that someone resigns.

15. Dereck Fletcher – Ridgewood

1. My family owns 80 acres and have never been informed by the City of Cave Springs about the trail. I think after what I have heard already I think it is a good thing to reconsider this trail. I think you all should be ashamed of yourself.

16. Tammy Adams – N. Main Street

1. I don't understand why the City has so many employees. I can't understand why we need a Vice Mayor, and why we raised payroll 50%. I am willing to offer my time and help organize free of charge.

17. Ann - Cave Springs

1. Community Building / Larry Fletcher he has met with BJ Burney and Bob Smittle. It is not coming along as fast as we expected. You will be very proud of progress that is going on, the open ceilings, etc.. It will not be ready by Thanksgiving; we are hoping by Spring.

Proposed Ordinance to amend Article 6, Article 10, Article 12 and add a new Article 11 of the Planning and Zoning Regulations for the City of Cave Springs, Benton County, Arkansas. Staff requests the final review for the proposed Ordinance amending, adding to, replacing, and/or renumbering the same, to the extent necessary for the purposes of this amendment, specifically to amend the Planning and Zoning Regulations for the City of Cave Springs to amend ARTICLE 6

ZONING DISTRICT REGULATIONS, ARTICLE 10 GENERAL STANDARDS, ARTICLE 12 ADMINISTRATION AND ENFORCEMENT and add ARTICLE 11 LANDSCAPING.

Alderman Fletcher made a motion to table discussion, Alderwoman Winters seconded the motion. Passed 6-0

**1b. Simpson Property – 223 N. Main Street Cave Springs, AR**

Alderwoman Winters spoke to Jon Simpson this weekend. This building has been in their family since the early 1920's, it has always had some kind of business in it. He was ok with the C2 zoning; he did not feel all of the extra conditions that were now attached is appropriate. Alderwoman Winters made a motion to the council to drop the 8 conditions that the Planning Commission has requested of the Simpsons regarding the property.

Mayor Lee: We would be breaking the law if we do this.

Suzy Fehlig: I am on the Planning commission and this is being brought to the planning commission before it is brought to the council and we have asked him to do certain things. You can't put this as a motion until it comes thru Planning first.

**2. DISCUSSION:**

Regarding Resolution Trail Environmental Regulations and Funding Agreements.

a. Cassie Elliott w/ Visionary Milestones & Kevin Beaumont w/ McClelland Engineering

1. Cassie will not be around November & December meetings
2. Cassie has been speaking to Jeff Hawkins from NWAR Planning. She is bringing a resolution to the council tonight. Something that needs to be addressed first is the Karst study. There are a lot of moving parts and wants to be transparent about it. She wants to come up with a route to take into consideration what the people want.
3. Kevin said there is Federal Grant Money involved. The trail does go thru the high risk area, there are buffer zones and it will not interfere with the Karst Study.
4. Cassie met with Daniel Barnes at McClelland 2 years ago and they started planning then. This NWA Bike and Ped Plan was approved March 30, 2015 by a resolution by the City Council.

Alderman Fletcher: Does the Karst study have to be approved by a resolution before the bike trail can go forward?

Cassie Elliott: Yes before you can receive federal grant money. Jeff Hawkins said that before a \$244,000 grant is issued a Karst Ordinance must be passed.

Alderman Fletcher: Will it cost the city any money to build that trail? Until we get 100% funding we will not work on the trail. Cassie said that we are not there yet. We have everyone stirred up to let them know how they feel. If any land has to be condemned it will have to go before the council. Alderman Fletcher asked if the council can choose where the trail can go? Kevin Beaumont said yes it is your trail. Cassie said that Lowell's stopping point is at the end of Ridgewood. Alderman Moore asked if we can connect somewhere else? If this council voted to run it down Shores, that will tell you how much money you will need to raise? Alderman Fletcher feels it needs to go down Shores and stay off these people's property. Fletcher wants the trail on Shores

Rita Duran: Said that Kevin Beaumont mentioned said the trail will stop at Raush Coleman, why can it not tie in by the school and then go down Shores Lane.

Alderwoman Winters: When Ridgewood was built Dr. Weir had a contract that his pond was going to be used as retention pond. Kevin Beaumont stated that if that is the case then we will have to make revisions to the design.

Alderman Fletcher made a motion that the bike trail go down Shores Ave. Alderman Williams seconded the motion.

Alderman Finch: Point of order is that on the agenda. Alderman Fletcher said yes it was, Alderman Finch said not to change the trail.

Alderman Fletcher: Withdrew his motion and made a motion to amend the agenda and put to vote on moving the trail to Shores, Alderwoman Winters seconded the motion.

Alderwoman White: If the council needed to advise the people on Shores that the location of the trail has moved? There are a few homes.

The crowd stated "no one told them about the trail."

Alderman Finch: Mr. Mayor, I don't think we can hold a vote until we let the people know that there is going to be a trail there. All of this mob hooting and hollering out here is not going to fix any of these problems. If we vote to put it on Shores Road, then those people will never realize the trail was going to go there because no one told them. We have had two public meetings regarding this trail so the nonsense about not knowing is just not true.

Resident of Cave Springs "Hutch" stated there is a motion and a second. Alderman Finch said that is why we are having a discussion "Numb Nuts".

Mayor: If you want to just vote on this now?

Alderman Finch: It is entirely a bad idea to vote now on the direction of the trail without notifying the people who are impacted by it. We have never taken a vote, or voted on the lay out of the trail by Ridgewood or anywhere else ever. I don't know what the Brew Ha Ha is about. No one can take your land or no one can say the trail is going to be there unless you have been notified, and which all of you have had. Yes, you have because you are here now.

Mayor: Let's not vote on it tonight and let's notify the residents on Shores, if we can't even go that route. It won't go thru Ridgewood if we don't want it to go thru Ridgewood.

Crowd is asking to vote on it!

Alderman Finch: Said do not be pushed by the Mob to do something we should not do.

Mayor: Let's not do this we can vote when we get the environmental study." When we get all of the studies done that is when we will decide where it is going to go. The decision that we go with will be based on the studies. We just need a route to apply for the finances.

Crowd: Then why can't you eliminate one off the list? You already know we don't want it.

Mayor: It is already off the list. I will not even consider that on the list.

Crowd: I don't know why you are arguing if you're not looking at the trail going in Ridgewood.

Mayor: I don't want to eliminate something and totally disregard everything we have done with the grants and everything else.

Crowd: Mayor you said that this is all proposed and nothing has been planned. It's pretty well planned out.

Mayor: It's a trail, we can make a motion. I am not even sure if we can get rid it. I know you all don't want it so I am not going to push it to go that route.

City Recorder: Can we make a motion to vote that it won't be on Ridgewood?

Mayor: I don't know if we can, per the guidelines of the grant.

Alderman Fletcher: I made a motion and we need to vote on it.

***Alderman Finch excused himself of the council meeting at 8:40 pm.***

Alderman Fletcher: I made motion to put the vote on the agenda.

Alderwoman White: Let me get this clear, it is only to put the item on the agenda and not to vote.

Alderman Fletcher: YES

Alderman Fletcher: No one is going to change the financials. The State is coming in November, and let's put this on hold and let's let the State Auditors come in and do the audit. State Senator Bart Hestor, is on the oversight committee for Legislative Audit. Fletcher met with Senator Bart Hestor and as soon as the auditor is completed with Benton Co. they will be coming to Cave Springs.

Alderwoman Winters: I have known David Williams for years. He was on Legislative Audit for 34 years. If we needed any assistance in book keeping he will be glad to assist us. He will charge us \$80.00 an hour. We can wait on the audit.

Regarding the location of bike trail to Sands Road

Craig Southern: This needs to go before the Planning Commission before it goes to Council.

Mayor: The Council can vote, all though I don't feel this is a good idea at this time.

Resident: Can you vote to eliminate the trail?

Mayor: NO

Resident: Why not?

Mayor: Because the public wants this trail, that's not who I have been talking to.

Resident: Everyone who cares about it has shown up, and we don't want it.

Resident: You said the council had to vote on it.

Alderman Fletcher: I think Planning needs to be involved and I am not willing to make a motion. With that being said I will not come off of my feelings of putting it on Shores Ave, absolutely will not come off of that.

Resident: Can you not just vote on not putting it on a specific area?

Craig Southern: It needs to go before the Planning Commission, and they need to recommend something to the City Council. The planning commission meeting is November 1<sup>st</sup>, and it is an open meeting.

Alderman Williams made a motion to kill the trail all together. No one seconded the motion

Mayor: We can't do that.

Alderman Williams: Here's how things are going to play out. The people on Shores will not be happy and the people at Ridgewood will not be happy. I am a fan of personal property rights and not big government. In Chicago they have beautiful trails. This greenway trail sucks, I am against spending money. I am tired of the drama. If we are not going to table it, let's just kill it I am tired of spending the time on it.

Alderman Moore: I don't think killing it is the right thing to do. We have spent a lot of time on this and it is good for the community, that is why we are here. I am glad you all came out.

Alderman Williams: Shores is not going to work either. You all might as well kill it and put it out of its misery.

Mayor: We cannot just kill it.

Alderman Moore: We all agree that we will not put it on Ridgewood. It needs to go to Planning Commission.

Alderwoman Winters: To table it means it will go to the next City Council meeting. The Planning Commission needs to take in consideration the safety, health and welfare of the citizens of Cave Springs.
